# 1 Abstract

The project for the Hypermedia Application course is to develop a website for a center that offers support to women in difficulty and involved in situations of violence and family maltreatment. In this report we will focus on presenting all the design choices that were made to implement Helping Hands, a center that supports women who have experienced violence or that want to help them. The following chapters will show all the steps of the process that led us to the final version of the website.

## 2 C-IDM Diagram

The C-IDM (Content Interactive Dialogue Model) Schema is a representation of the website that helps during the planning phase. As an addition to the required pages, we decided to add an Ask for Help page to help users find essential information in case of emergency and a Support us page since our center is no profit.

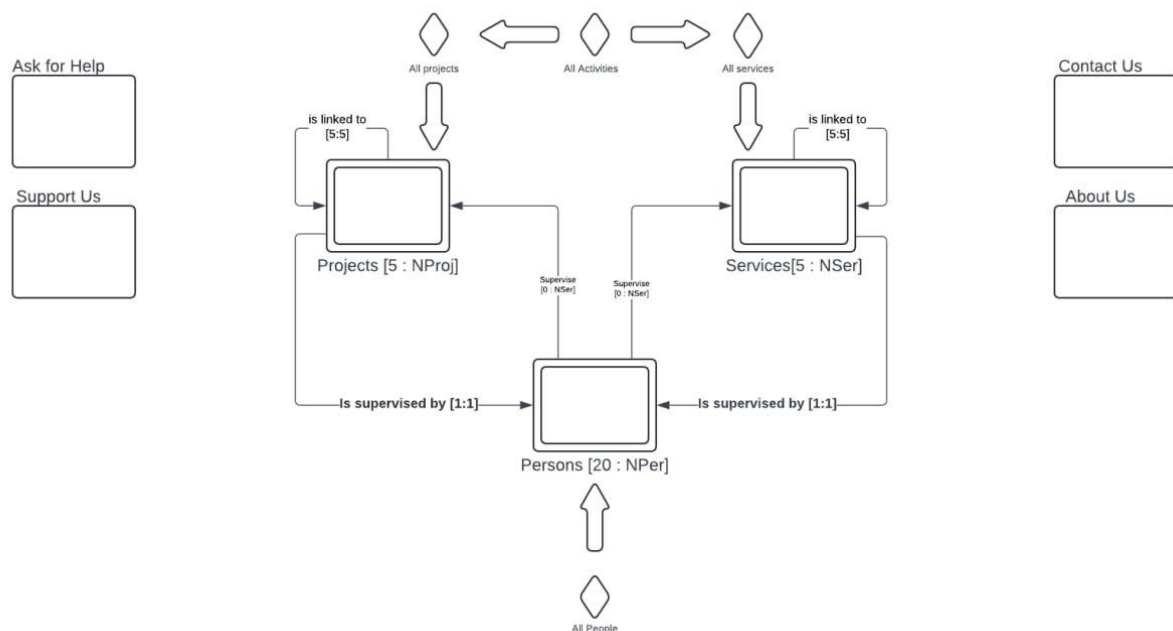

Figure 1: C-IDM Diagram

### 3 Content Tables

This section contains a list of all the content in-the-small tables we created.

#### 3.1 Landmarks

Every page contains landmarks in the top navigation bar and in the footer. We decided to maintain the same links in all the pages of the website, instead of changing them.

Header landmarks are Homepage, Activities, Projects, Services, Ask for Help, Our Team, About Us, Contact us and Support us, while the footer includes the links to the social media profiles of the center.

#### 3.2 Kind of Topic Tables

KIND OF TOPIC: PERSON
Person Name: Text (max 30 char)
Person Photo: Image
Person role: Text (max 30 char)
Contacts: Text (email)
Person CV: Text (Link to PDF file)
Person Description: Text (max 150 words)
<b>Related Projects as Supervisor Preview: [Image (Project Logo), Text (Project Title), Text (Project Short description)]</b>
<b>Related Services as Supervisor Preview: [Image (Service Logo), Text (Service Title), Text (Service Short description)]</b>

KIND OF TOPIC: PROJECT
Project Title: Text (max 50 char)
Project Logo: Image
Project Foundation Year: Date
Project Short Description: Text (max 20 words)
Project Description: [Text (max 150 words), n Images]
Project Team Members: LIST OF [Text (Person Names)]
<b>Related Supervisor Preview: Text (Person Name)</b>
<b>Related Other Projects Preview: [Image (Project Logo), Text (Project Title), Text (Project Short description)]</b>

KIND OF TOPIC: SERVICE
Service Title: Text (max 50 char)
Service Logo: Image
Service Short Description: Text (max 20 words)
Service Description: [Text (max 300 words), n Images]
Service Testimonials: LIST OF [Text (Testimonial Name), Text (Testimonial Quote), Image (Testimonial Photo)]
Service Team Members: LIST OF [Text (Person Names)]
<b>Related Service Supervisor Preview: Text (Person Name)</b>
<b>Related Other Services Preview: [Image (Service Logo), Text (Service Title), Text (Service Short description)]</b>

### 3.3 Group Tables

GROUP: "ALL PERSONS"
Group Title: "Our Team"
Description: Text (max 50 words)
<b>Members Preview: LIST OF [Person Photo; Person Name; Person Role]</b>

GROUP: "ALL PROJECTS"
Group Title: "Our Projects"
<b>Members Preview: LIST OF [Project Logo; Project Title; Project Small Description]</b>

GROUP: "ALL SERVICES"
Group Title: "Our Services"
<b>Members Preview: LIST OF [Service Logo; Service Title; Service Small Description]</b>

GROUP: "ALL ACTIVITIES"
Group Title: "Our Activities"
All Projects Description: [Text (max 200 words), n Images]
All Services Description: [Text (max 200 words), n Images]
Description: Text (max 200 words)

### 3.4 Topic Tables

TOPIC: "CONTACT US"
Title: "Contact Us"
Phone Number: Number
Description: [Text (max 100 words), n Images]
E-mail: Text
Social Media: [Text, Thumbnail Image]
Address: [Text (max 20 words), Map]
Submit Message Form: Form

TOPIC: "ABOUT US"
Title: "About Us"
Description: [Text (max 500 words), n Images]

TOPIC: "DONATE"
Title: "Donate"
Description: [Text (max 100 words), Image]
Submit Donation Form: Form

TOPIC: "VOLUNTEER"
Title: "Become a volunteer"
Description: [Text (max 500 words), n Images]

TOPIC: "ASK FOR HELP"
Title: "At your side"
Description: [Text (max 500 words), n Images]

TOPIC: "ASK FOR HELP: FOR ANOTHER"
Title: "Help another"
Description: [Text (max 500 words), n Images]

TOPIC: "ASK FOR HELP: FOR YOU"
Title: "Help for you"
List: [Text (max 100 words), Image]
Description: [Text (max 500 words), n Images]

TOPIC: "SUPPORT US"
Title: "Support us"
Description: Text (max 100 words)
Description: Text (max 100 words)
Submit Testimony Form: Form

## 4 Wireframes

In this section we provide the high-fidelity wireframes of all the abstract pages we created.

### 4.1 Header and Footer

Since every page on our website contains the same Header and Footer, we will analyze them in this section to avoid redundant explanations.

Figure 2: normal Header

Figure 3: Header on small windows

The header component contains the list of landmarks that can be used to navigate inside the website. It changes according to the different screen dimensions, presenting a hamburger menu that opens a sidebar with all landmarks present in the normal header.

Figure 4: Footer

This component presents some basic information about the center and a group of links to external websites (social networks).

## 4.2 Orientation info

Every page of our website presents the same approach to show orientation info, that is showing the breadcrumb of the page in the top left corner and the page title in the center.

[home](#) > [all activities](#) >

Figure 5: Breadcrumb

## Projects

Figure 6: Title Example

## 4.3 Back Button

Every page of our website presents the same button in the left border. This button is a Back Button that allows the user to get to the previous page.

In the following chapters it will be highlighted using the color green.

Figure 7: Back Button

## 4.4 Chatbot

Every page of our website presents the same button also in the right border. This button is the Chatbot button that allows you to open the dedicated window.

Figure 8: Chatbot Button

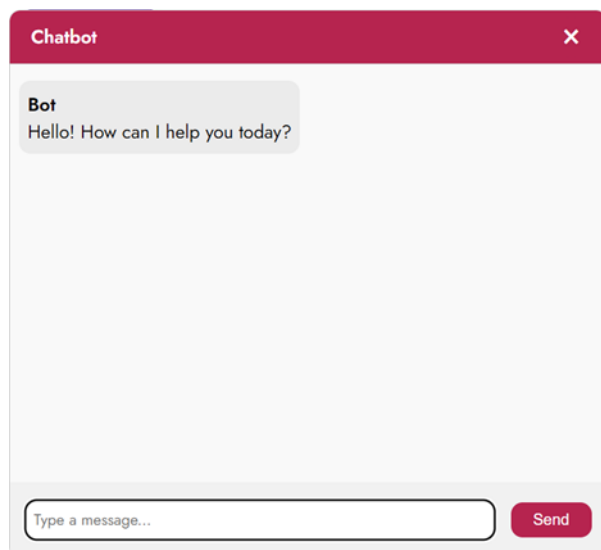

Figure 9: Chatbot Window

## 4.5 Kind of Topic Page

The single **Person page** is divided into two main sections:

- Firstly, the team member's personal information is provided: their full name, role, contacts and Curriculum Vitae. A short description of the person's interests and impact on the center is also available.
- Then, a preview of the projects and/or services in which they are supervisors is offered through two sliding carousels. These cards are clickable and refer the user directly to the page about the specific project/service.

The pages for the 20 center members all follow the layout shown below.

From each Person, it is possible to go to the previous and next one, through “*Previous*” and “*Next*” links located on the sides, in an established order.

The corresponding abstract page *Project* is presented in chapter 7.1.

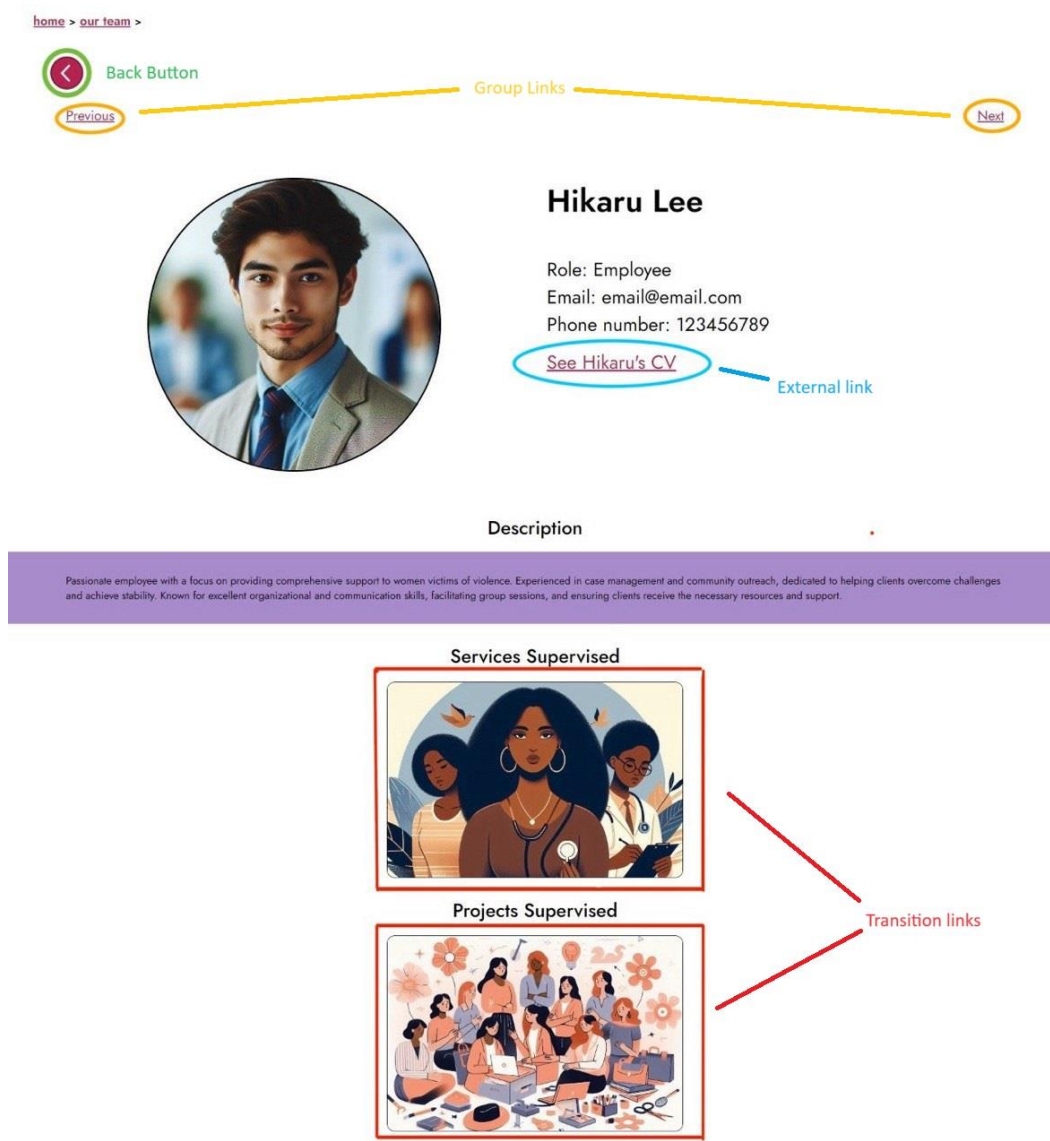

Figure 10: Person page

## 4.6 Project Kind of Topic Page

The single **Project page** is divided into two sections:

- The first section provides basic information on the project's supervisor, team members, and start date. Its image appears prominently on the side. A brief project overview is also provided.
- Then, a preview of other related projects of the center is offered. These cards are clickable and refer the user directly to the page about the specific project.

The corresponding abstract page *Project* is presented in chapter 7.1.

Figure 11: Project page

## 4.7 Service Kind of Topic Page

The single **Service page** is divided into three sections:

- The first section provides basic information on the supervisor, team members, and service timetable. Its image appears prominently on the side. There is also a button link to the Contact Us page in case the user wants to participate in the service. A brief service overview is also provided.
- The second one is a collection of testimonial cards, each with a short text expressing the individual's experience with the service under consideration.
- Then, a preview of other related services of the center is offered. These cards are clickable and refer the user directly to the page about the specific service.

The corresponding abstract page *Service* is presented in chapter 7.1.

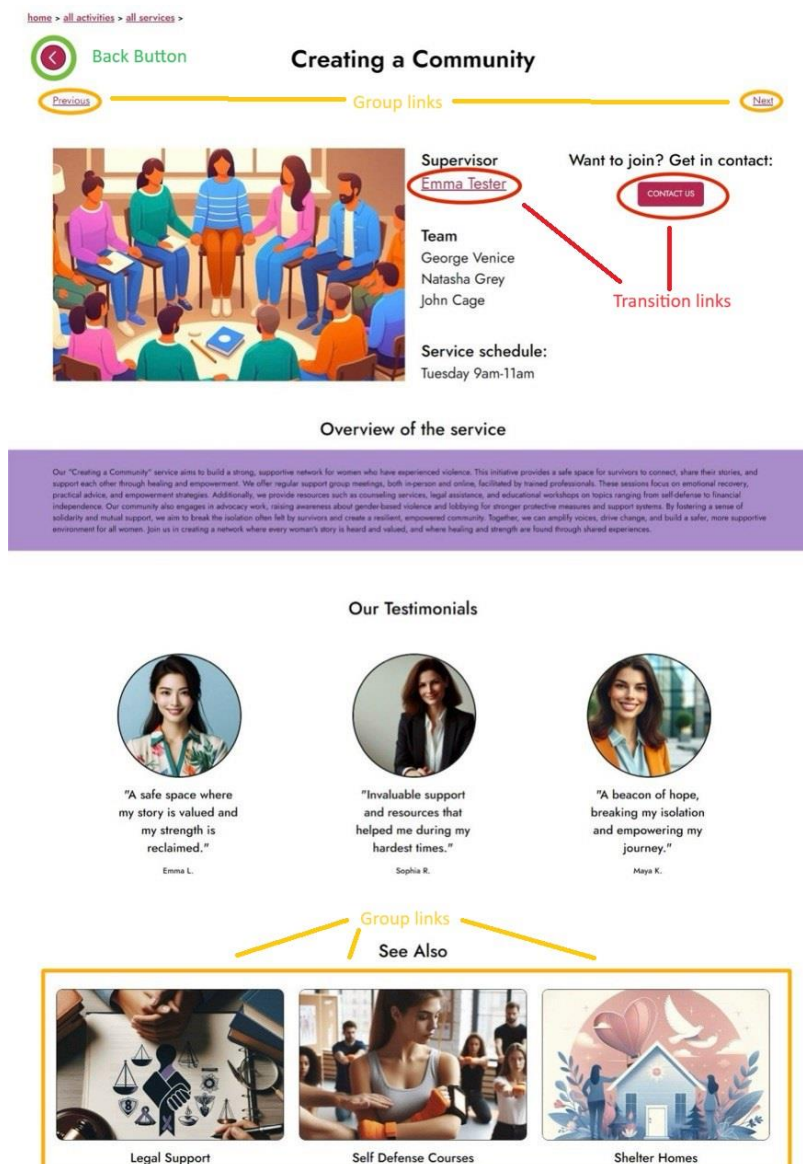

Figure 12: Service page

## 4.8 All Activities Group Page

At the beginning, the **All Activities** page contains some general information about all activities of the center. The remaining part of the page is divided in two sections:

- The first one totally dedicated to the projects of the center with the relative button link to the correspondent page
- The second has the same structure, but it's focused on the services of the center.

The corresponding abstract page *All Activities* is presented in chapter 7.2.

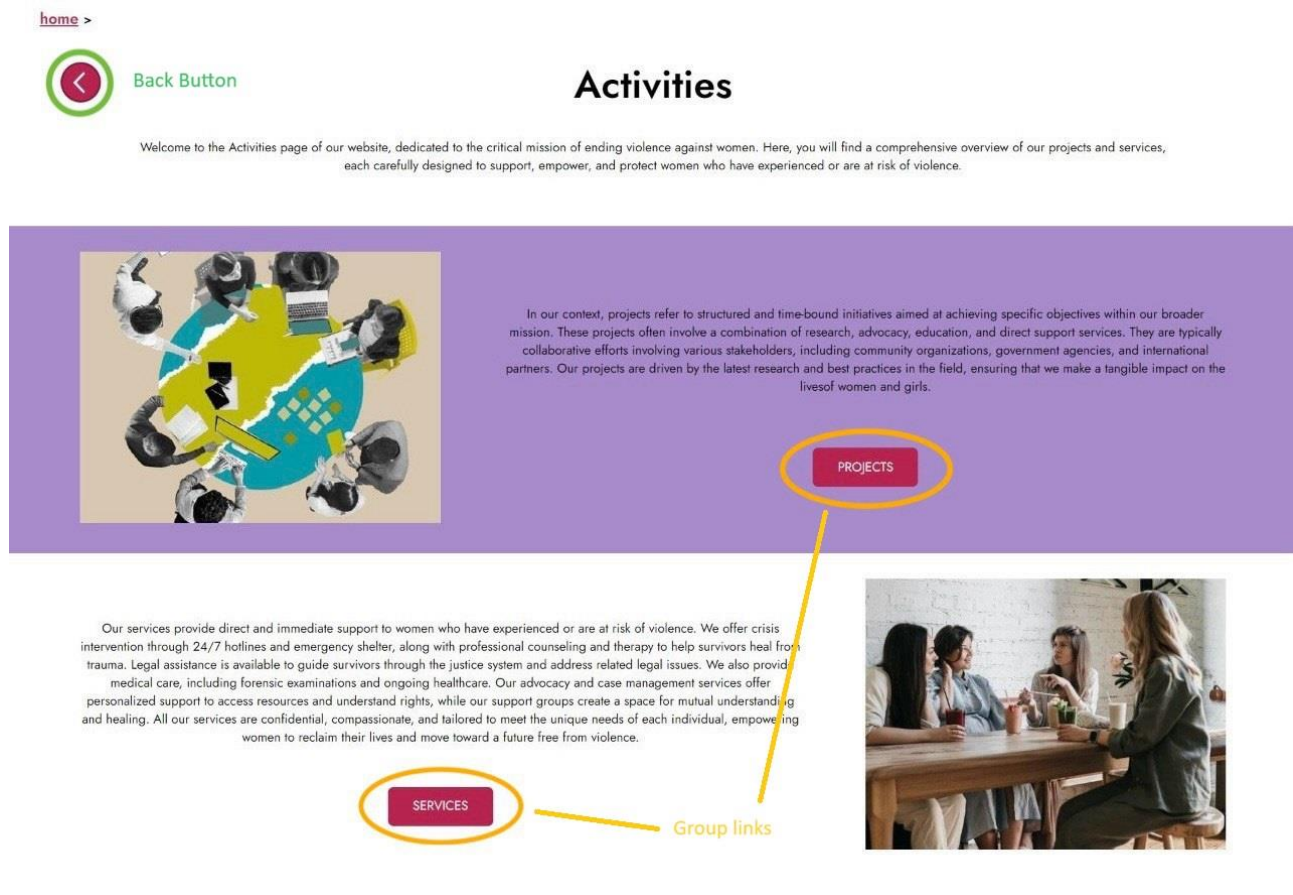

Figure 13: Activities page

## 4.9 All Persons Group Page

**Our Team** page presents a preview of everyone who works at the center. After a very small introductory text, a list of person cards is shown, including their photo, full name and position within the center. Clicking on the card, the user can directly access the page of that specific person.

As extra functionality, we decided to implement different sorting rules for the cards. When first accessing the page, the user will see the cards ordered by role (default), but it can be changed to alphabetical order or its reverse.

The corresponding abstract page *All Persons* is presented in chapter 7.2.

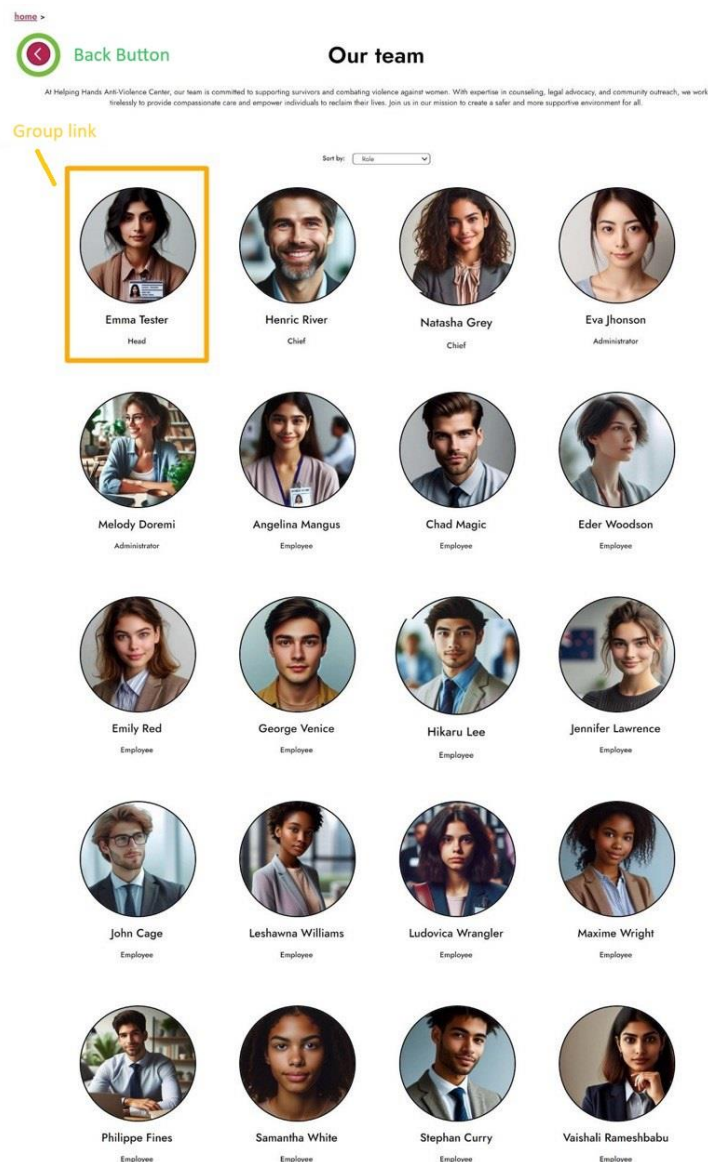

Figure 14: Our Team page

## 4.10 All Projects Group Page

After a small introductory text, the **All Projects page** contains the full list of projects founded by the center. These are split rows of 3 elements each for a more organized view of the content. Each project is represented by an image, a title and a short description.

Clicking on the card, the user can directly access the page of that specific project.

Also in this page, the sorting functionality is implemented. It allows the user to select between alphabetical order (default), alphabetical reversed, newest first and oldest first.

The corresponding abstract page *All Projects* is presented in chapter 7.2.

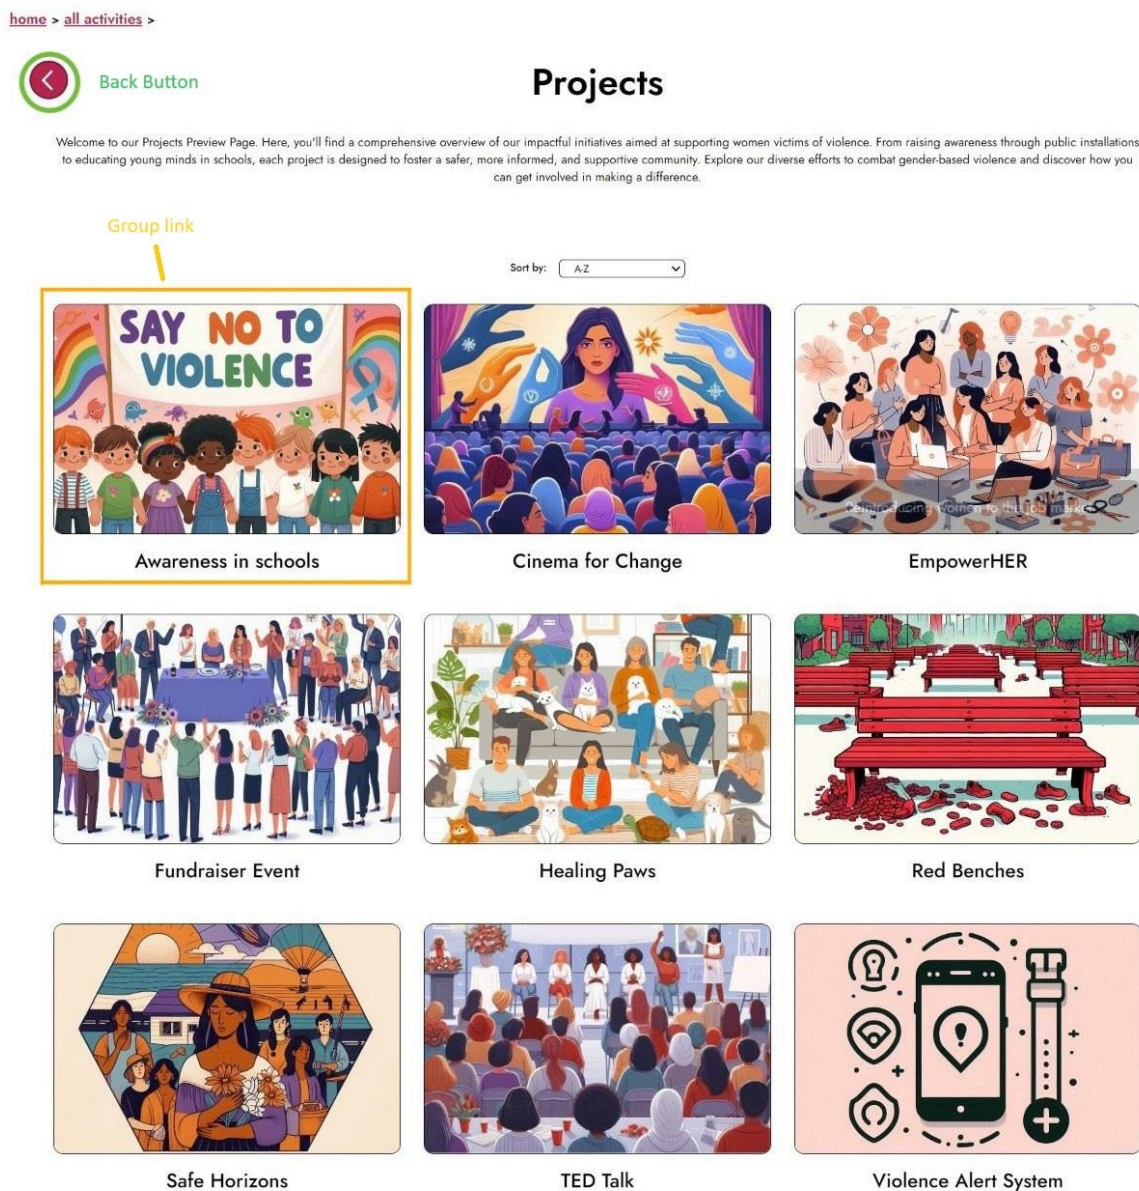

Figure 15: All Projects page

## 4.11 All Services Group Page

After a small introductory text, the **All Services page** contains the full list of services offered by the center. These are split rows of 3 elements each for a more organized view of the content. Each service is represented by an image, a title and a short description.

Clicking on the card, the user can directly access the page of that specific service.

Also in this page, the sorting functionality is implemented. It allows the user to select between alphabetical order (default) or reversed.

The corresponding abstract page *All Services* is presented in chapter 7.2.

### Services

Helping Hands Anti-Violence Center is dedicated to ending violence against women. We offer refuge, counseling, legal aid, and emergency housing for survivors of domestic violence, sexual assault, and harassment. Through community collaboration and advocacy, we raise awareness and promote change. Join us in empowering survivors and creating a safer world for every woman.

## 4.12 Contact Us Topic Page

The **Contact Us** page holds all the information a person needs to be able to reach the center.

It is graphically divided into three sections:

- The first one includes the center's phone number and directions.
- The second section is related to an extra functionality we decided to implement: a contact form. Through this form, the users can send questions, information requests or assistance requests to the center, and leave their e-mail to be contacted afterwards; The inclusion of first and last name is not mandatory. E-mail and social media profiles of the center are also provided here.
- The third part contains an interactive map pinned at the address of the company headquarters.

The corresponding abstract page *Contact Us* is presented in chapter 7.3.

Back Button

# Contact Us

**Call**  
**123-456-7890**

To reach us from Milano Centrale, exit the station and take Metro Line 2 (Green) towards Cologno Nord/Gessate. Get off at Piola Station. Exit the station and walk along Via Giovanni Pacini, then turn right onto Via Edoardo Bassini. Continue straight until you reach Piazza Leonardo da Vinci. The main entrance of Politecnico di Milano will be on your right. The total travel time is approximately 15-20 minutes.

### Contact Form

We are here to help you! If you have any questions, information requests, or need assistance, please don't hesitate to contact us. Fill out the form below with your details, and our support team will respond as soon as possible. We are committed to providing you with fast and efficient service. Thank you for choosing to contact us!

**contact.mail@mail.com**

### We are here

Politecnico di Milano  
Piazza Leonardo da Vinci, 32  
Milan, Italy

Figure 17: Contact us page

## 4.13 About Us Topic Page

The **About Us** page is mostly descriptive, with three paragraphs outlining the goal, services, and general information about the Helping Hands team. Each paragraph has decorative images. The last one includes a button link to Our Team page.

The corresponding abstract page *About Us* is presented in chapter 7.3.

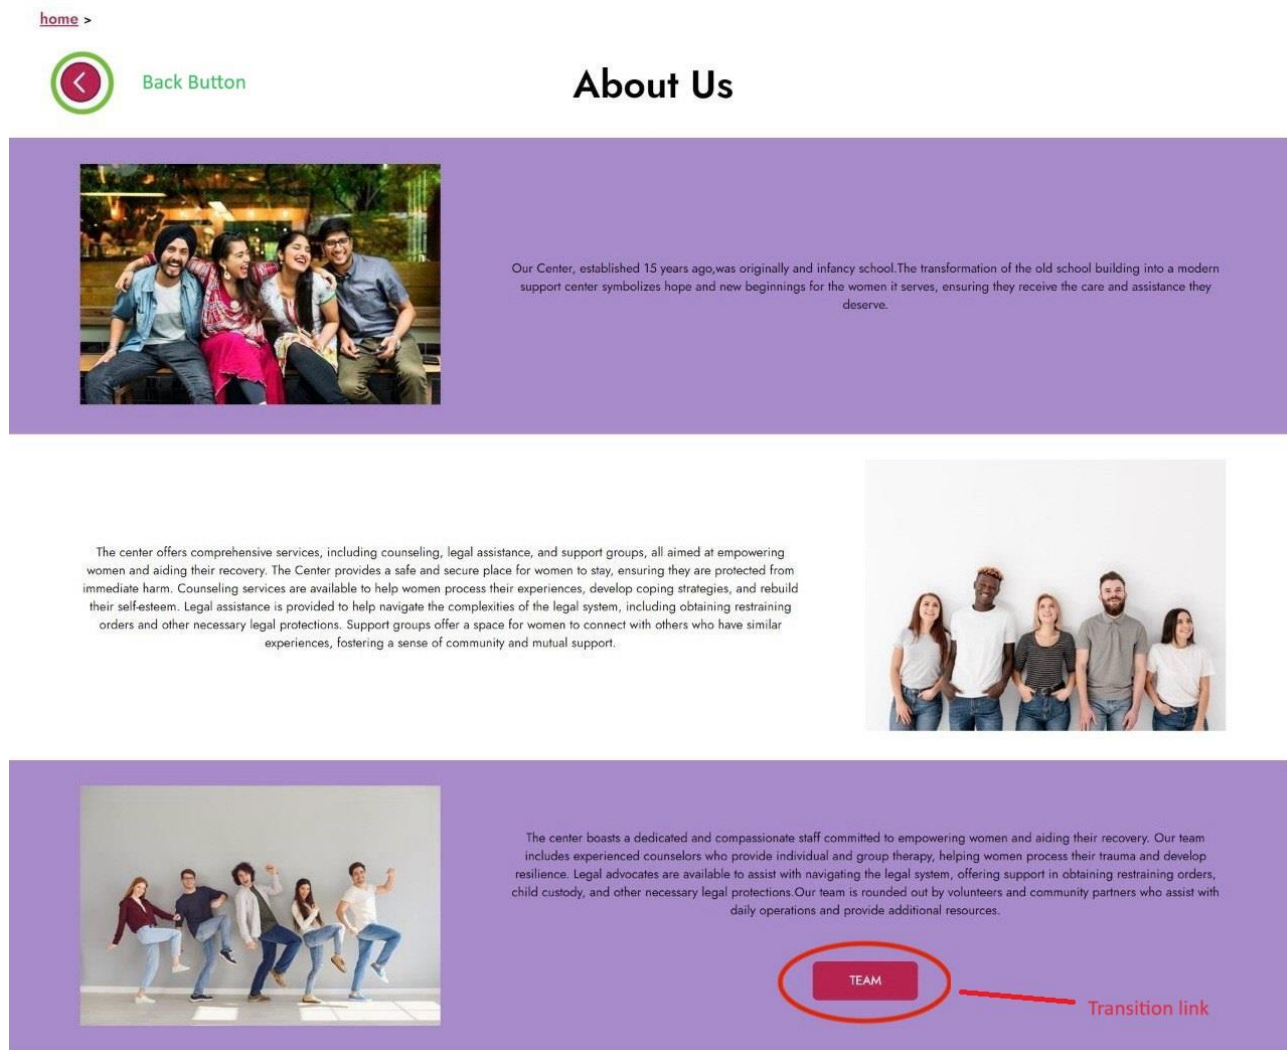

Figure 18: About us page

## 4.14 Donate Topic Page

The **Donate page** includes a form that allows users to make donations to the center. Each user can choose the amount of money to donate. A brief explanation of the purpose for the donation is offered, as well as a decorative image.

The corresponding abstract page *Donate* is presented in chapter 7.3.

Figure 19: Donate page

## 4.15 Volunteer Topic Page

The **Volunteer page** explains why someone should start working with the center as a volunteer. The emphasis is on teamwork and joining forces to fight for a worthy and common cause.

The bottom center contains the button link to Contact Us page.

The corresponding abstract page *Volunteer* is presented in chapter 7.3.

Figure 20: Volunteer page

## 4.16 Ask For Help Topic Page

The **Ask For Help** page is an introduction to real support for users who visit or contact the center.

The upper center of the page contains two button links to specific pages: "Ask For Help: For You" and "Ask For Help: For Another".

The remainder of the page consists of two completely descriptive paragraphs that describe the need and the importance of reporting situations of violence involving the subject in question or other people.

The corresponding abstract page *Ask For Help* is presented in chapter 7.3.

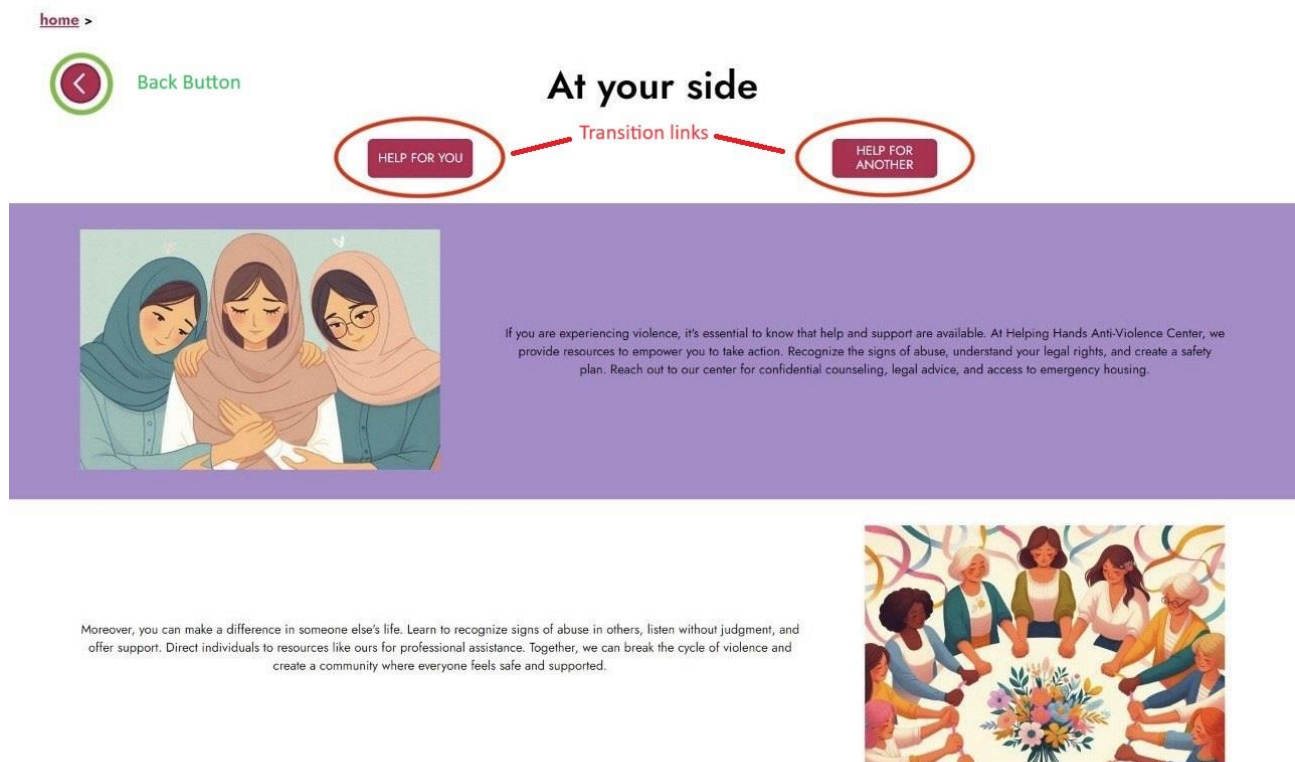

Figure 21: Ask for Help page

## 4.17 Ask For Help: For Another Topic Page

The **Ask For Help: For Another** page underlines the need of assisting and reporting those involved in violent occurrences who, for different reasons, are unable to seek help on their own. It is composed of three descriptive paragraphs and some decorative images.

The bottom center contains two button links to the Services page and Contact Us page.

The corresponding abstract page *Ask For Help: For Another* is presented in chapter 7.3.

Figure 22: Ask for Help: for another page

## 4.18 Ask For Help: For You Topic Page

The **Ask For Help: For You** page has very similar content to the Ask For Help: For Another page (*Chapter 4.18*), with the only variation being that the emphasis is on the individual in question rather than others.

The page is divided into three sections:

- The first section features a dropdown menu presenting the most common types of violence, each with a brief description; these descriptions can assist users in recognizing and categorizing an incident as violent.
- The following two parts are descriptive, encouraging those directly impacted to report occurrences if they identify with the types of violence outlined previously.

The bottom center contains two button links to the Services page and Contact Us page.

The corresponding abstract page *Ask For Help: For You* is presented in chapter 7.3.

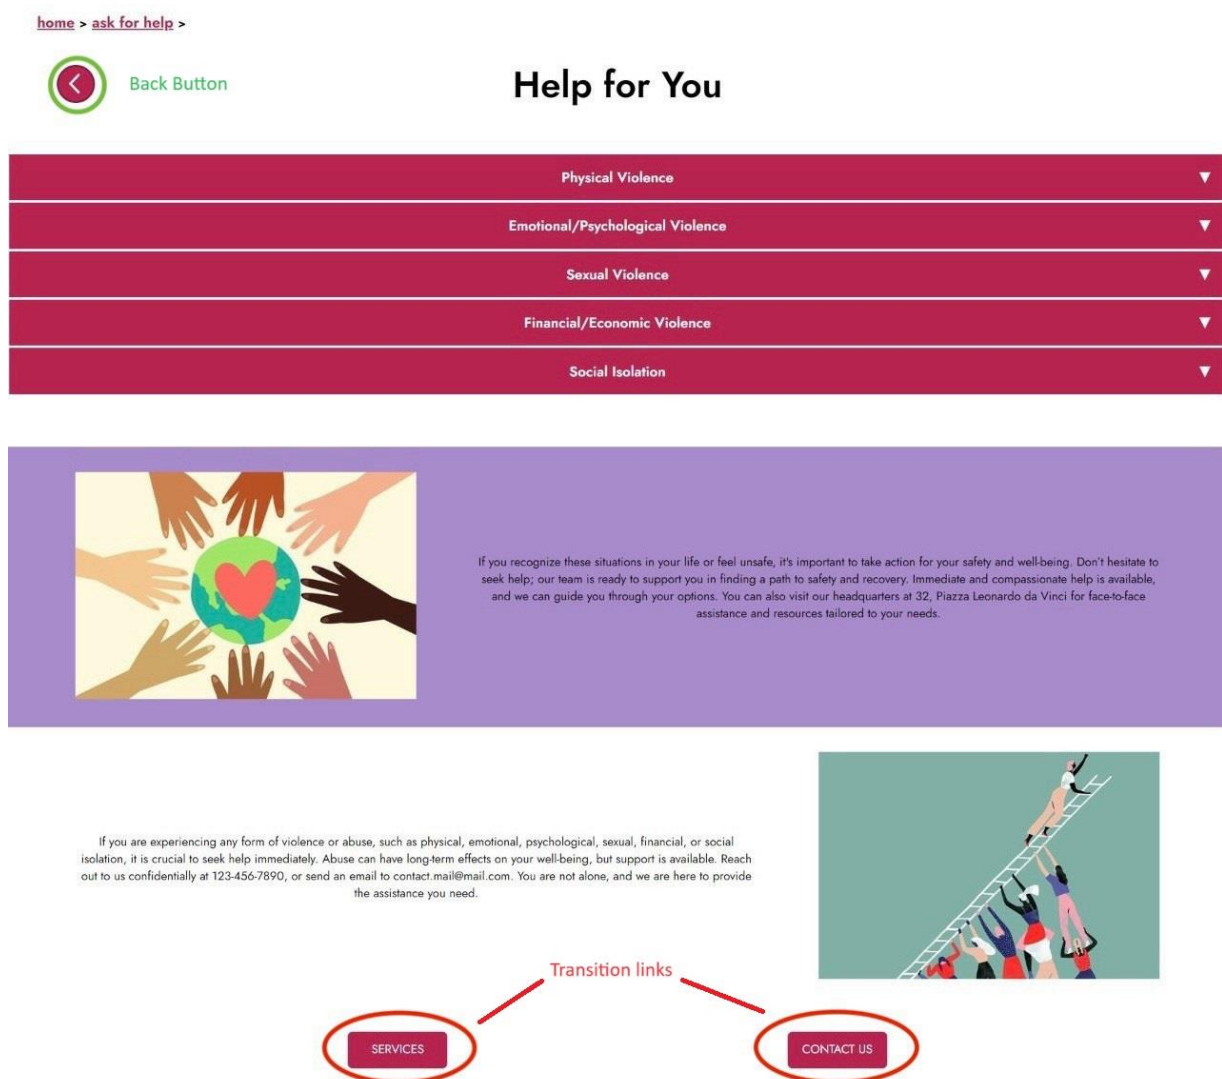

Figure 23: Ask for Help: for you page

## 4.19 Support Us Topic Page

The **Support** page provides general information about the various techniques available to support the center. It is graphically divided into two sections:

- The first section includes the button links to Donate page and to Volunteer Page, with brief description of each approach.
- The second one contains a form that allows users to submit their stories to the center. It may be sent anonymously or not.

The corresponding abstract page *Support Us* is presented in chapter 7.3.

Your Story

**SEND**

Figure 24: Support us page

## 4.20 Homepage

The initial image on the Homepage is a reference to the center's representative logo, which clearly evokes a sense of unity and collaboration, two essential principles of Helping Hands.

The page then features a series of descriptive bands that briefly highlight the center's fundamental concepts, with the goal of encouraging users to look around and directing them to the appropriate parts. There are button links that lead to almost every key page of the website to capture the attention of the casual visitor and encourage them to read more.

The corresponding abstract page *Homepage* is presented in chapter 7.3.

Figure 25: Homepage

## 5 Interaction Scenarios

In this section we present some use case scenarios of the website. Each scenario is presented with a short story and a series of images that describe the interaction with the website.

### 5.1 Scenario 1

Elena is worried about her friend Cecilia and the behaviors Cecilia's boyfriend has towards her. She decides to access the Helping Hands website. From there, she can navigate using the top bar to the Ask for Help section, and then navigate from that page to the Help for Another section to find information and descriptions on how to help her friend. Finally, Elena decides to go back to the previous page to check out more information and visit the web site.

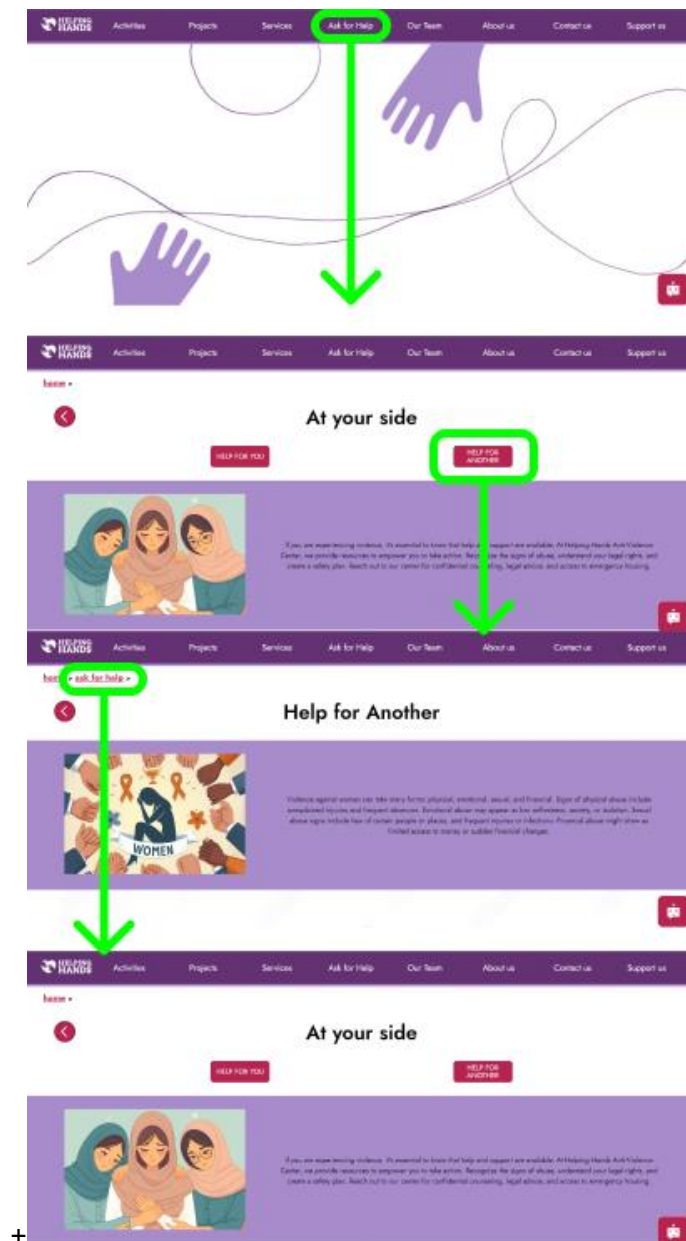

Figure 26: Scenario 1 Flow diagram

## 5.2 Scenario 2

Emilia, a very important singer, after being able to open up and share her experience, decides she wants to contribute to the cause against violence towards women by donating. Emilia then goes to the Helping Hands website and selects the Support Us item from the top bar. From this page, she can navigate to the donate page by clicking the appropriate button. Once on the donate page, she can read a description of how the money will be used and select the desired amount by clicking on the amount button or enter a custom amount and finally click on the donate button.

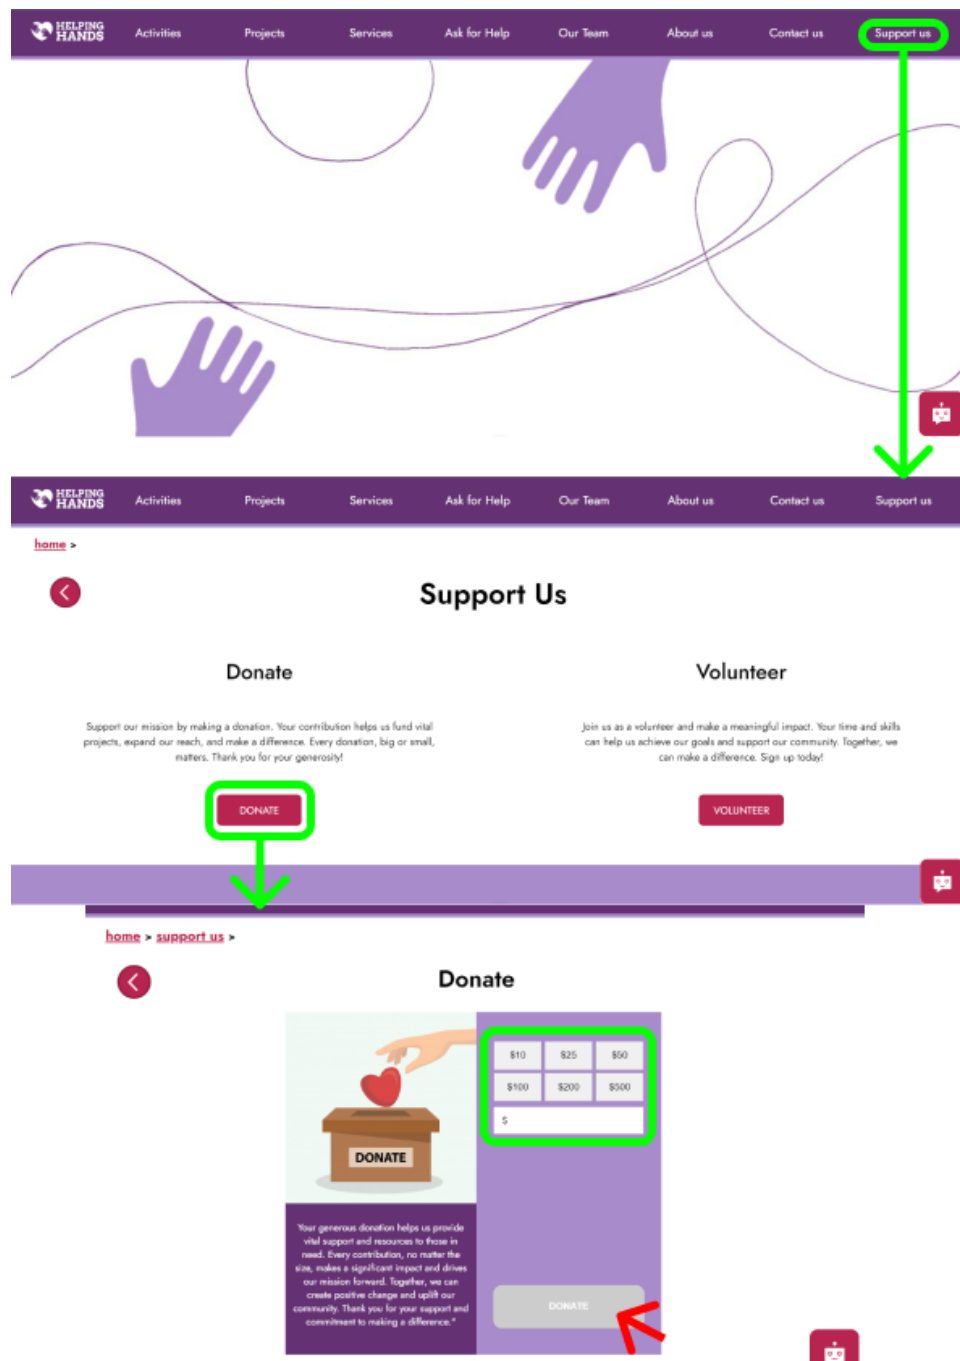

Figure 27: Scenario 2 Flow diagram

### 5.3 Scenario 3

Marta would like to work for the Helping Hands website. Before sending a resume, she decides to check what experiences the current employees have. So, she opens the site and from the top bar selects the "our team" section. Once on the page, Marta navigates by clicking on the first face she sees. However, when she enters the selected person's page, Marta realizes that the person's role is too high, so she decides to scroll through the various people using the next button until she finds someone in the role she wants to apply for. Once she finds that person, Marta downloads their CV using the appropriate link.

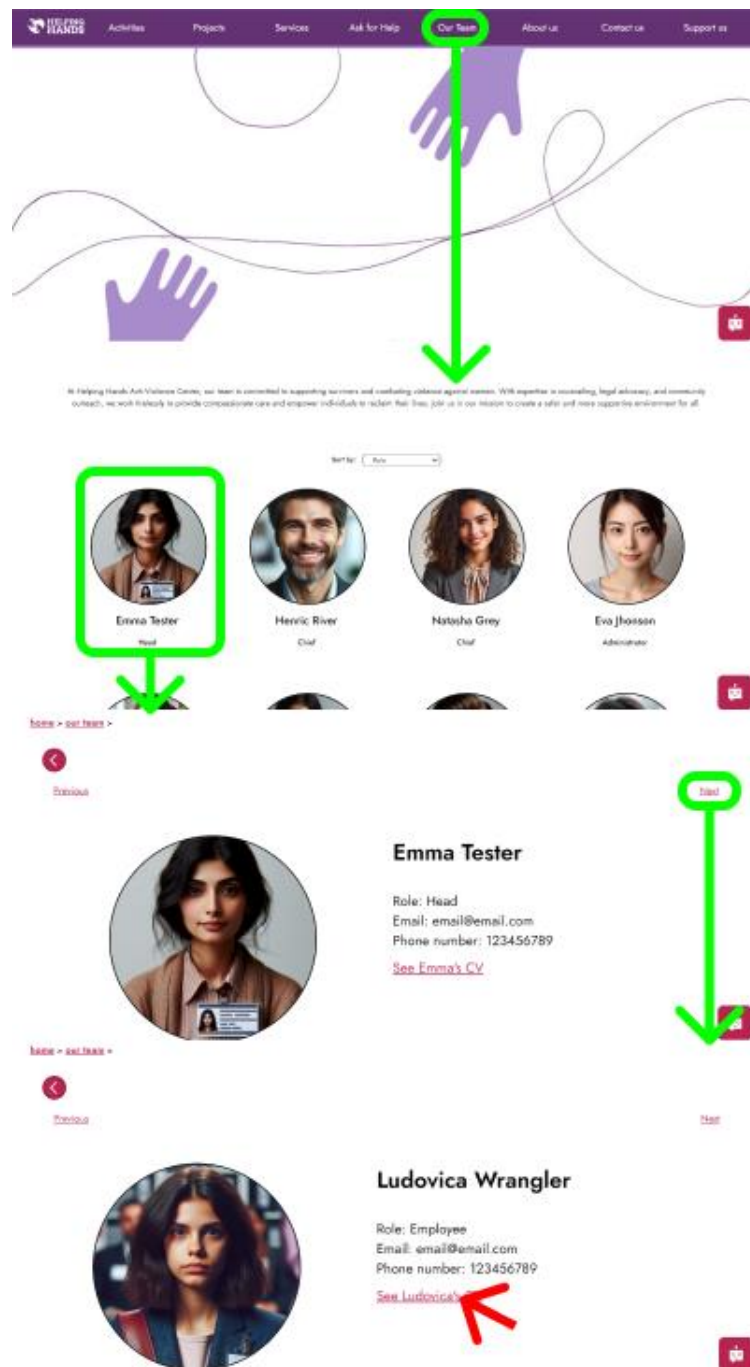

Figure 28: Scenario 3 Flow diagram

## 5.4 Scenario 4

Alice is a victim of violence and needs legal support to get out of her situation. On the advice of friends, she decides to consult the services provided by the Helping Hands website. Once on the home page, she navigates to the services page through the top bar, and once on the services page, she can reach the page of the most suitable service by clicking on the corresponding card. On that page, Alice can view the time slots during which the service is available and read the description of the service itself. Finally, Alice can request an appointment for the service by calling the number available on the contact us page, which can be reached by clicking the corresponding button.

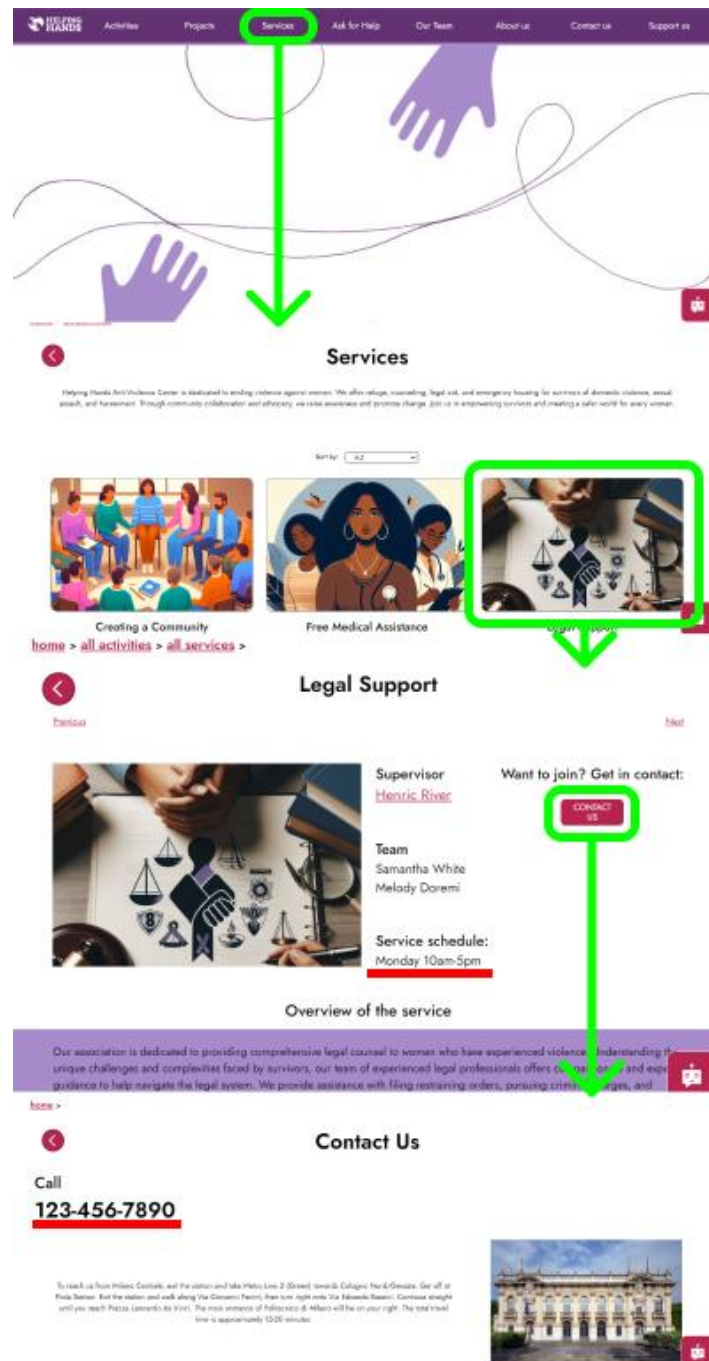

Figure 29: Scenario 4 Flow diagram

## 6 Database Design

In this section we provide the ER Diagram (Entity Relation Diagram), a schema representing the structure of our database.

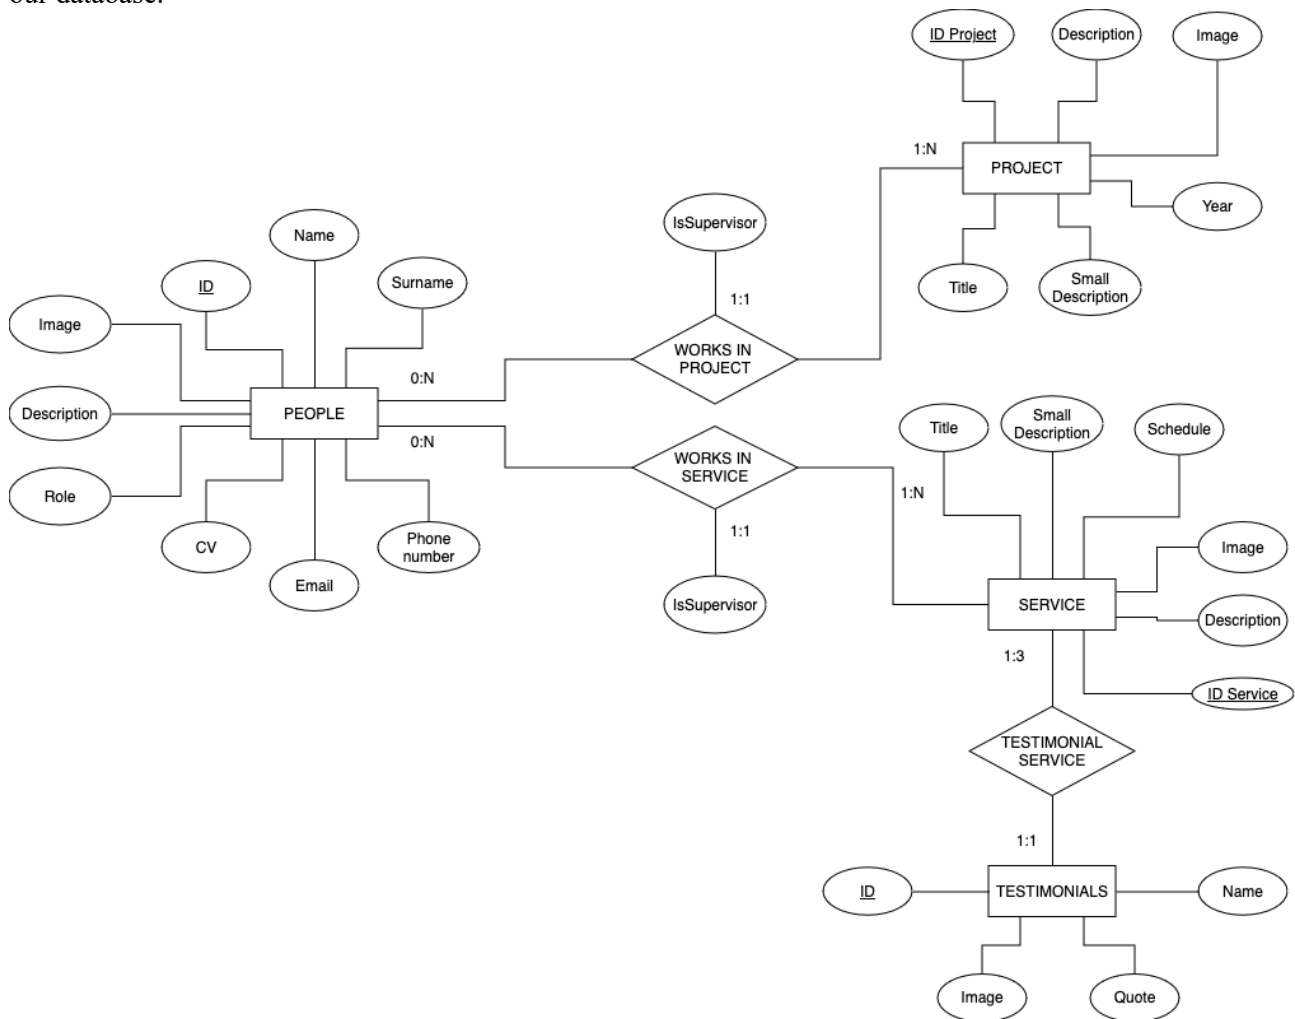

Figure 30: ER Diagram

The four main tables are: PEOPLE, PROJECT, SERVICE, and TESTIMONIALS, which represent corresponding entities with their attributes and a sequential and unique ID. We created the WORKS IN PROJECT and WORKS IN SERVICE tables to link entities from other tables using their IDs. The first one connects persons to the projects on which they worked and includes a column called *isSupervisor*, which is true for only one person per project. The second table shows the same information for services. Testimonials are unique to each service and are linked using the *project\_id* column in the TESTIMONIALS table.

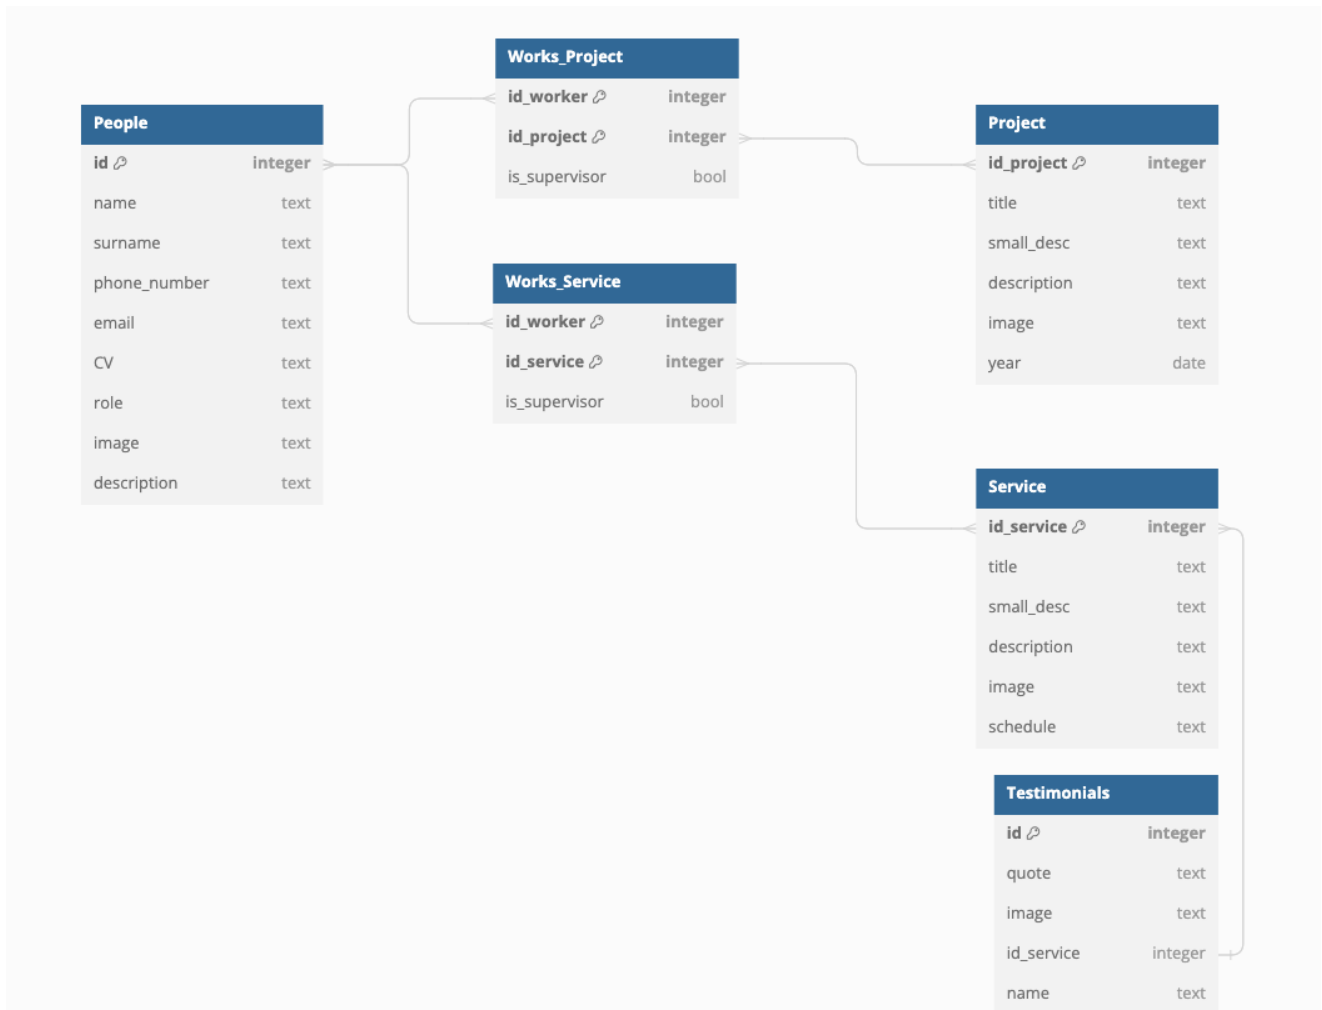

Figure 31: Relational Tables

Obviously, the cardinalities are the same as the ER Schema shown before.

## 7 Chatbot Integration

### 7.1 Chatbot Objective

The Chatbot's goal is to assist women in identifying violence cases and giving basic support. By identifying violence, we mean assisting users in understanding what a violent scenario is or, after the user has provided a scenario, assisting them in determining whether it involves violence and what type of violence it is. In terms of basics support, we imply providing women with basic instructions on how to seek help, such as "you should contact authorities" or "you can talk to trusted friends". When necessary, the bot provide info on how to use the website and where to find more information.

The answers have a reassuring and comfortable tone.

### 7.2 Chatbot Design

As explained in *Section 4.4*, the chatbot is an icon located in the bottom right corner of all pages. When clicked, the chat opens in its own window.

We chose an icon that opens a window for multiple reasons: it is clearly visible, it is easily recognizable, it can be accessible from all pages, and, when not in use, the window can be collapsed, ensuring visibility of the website's content.

On mobile devices, the chat window covers the entire screen.

When switching pages or opening/closing the chat, the bot saves the previous conversation, which may be continued at any time. After each page refresh, the conversation is reset.

### 7.3 Chatbot Interaction Scenarios

#### 7.3.1 Scenario 1: Basic support

In this scenario, you are a 12-year-old girl who wants to help her mother. In this instance, the bot should answer by giving the girl some advice on how to get help for herself and her mother.

**User**

Hello, I am Melody, a 12-year-old girl. Every night, I hear my mother screaming, so despite my fear, I went to investigate and discovered that my father was hitting her. I'm not sure what to do, but I want to help Mother; could you please tell me what I should do?

**Hypermedia\_bot**

I'm sorry to hear about what you're going through, Melody. It's brave of you to want to help your mother. This sounds like a form of domestic violence. It's important to seek help from a trusted adult or a helpline to ensure both you and your mother are safe. You can find more information on our website under "Ask for Help."

Figure 32: Scenario 1 Chatbot

### 7.3.2 Scenario 2: Violence Identification

In this scenario, there is a worried young woman who has recently broken up with her ex that is now harassing her. In this instance, the bot should recognize the type of violence Brittany is experiencing and offer simple assistance, such as advising her how she can seek help.

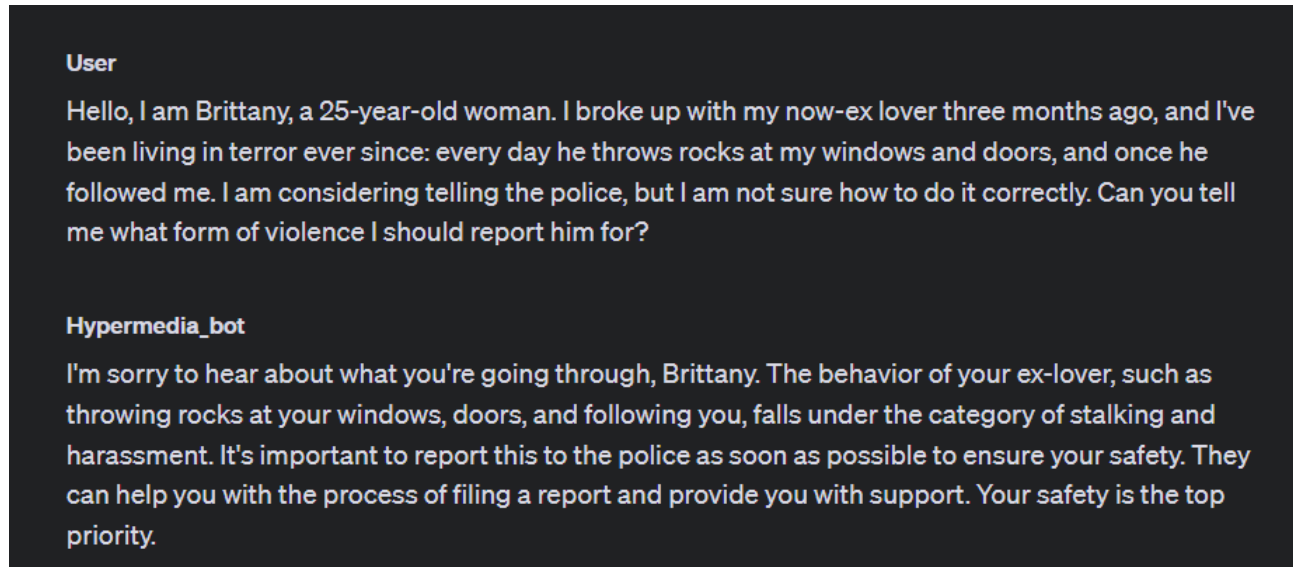

Figure 33: Scenario 2 Chatbot

### 7.3.3 Scenario 3: Information Request

In this instance, you are a student at university who must conduct research on the various forms of violence. The bot should respond by giving a brief description that includes several forms of violence and where to get that information on the website. You can also ask the bot to elaborate on any of the various forms of violence in order to carry on the conversation.

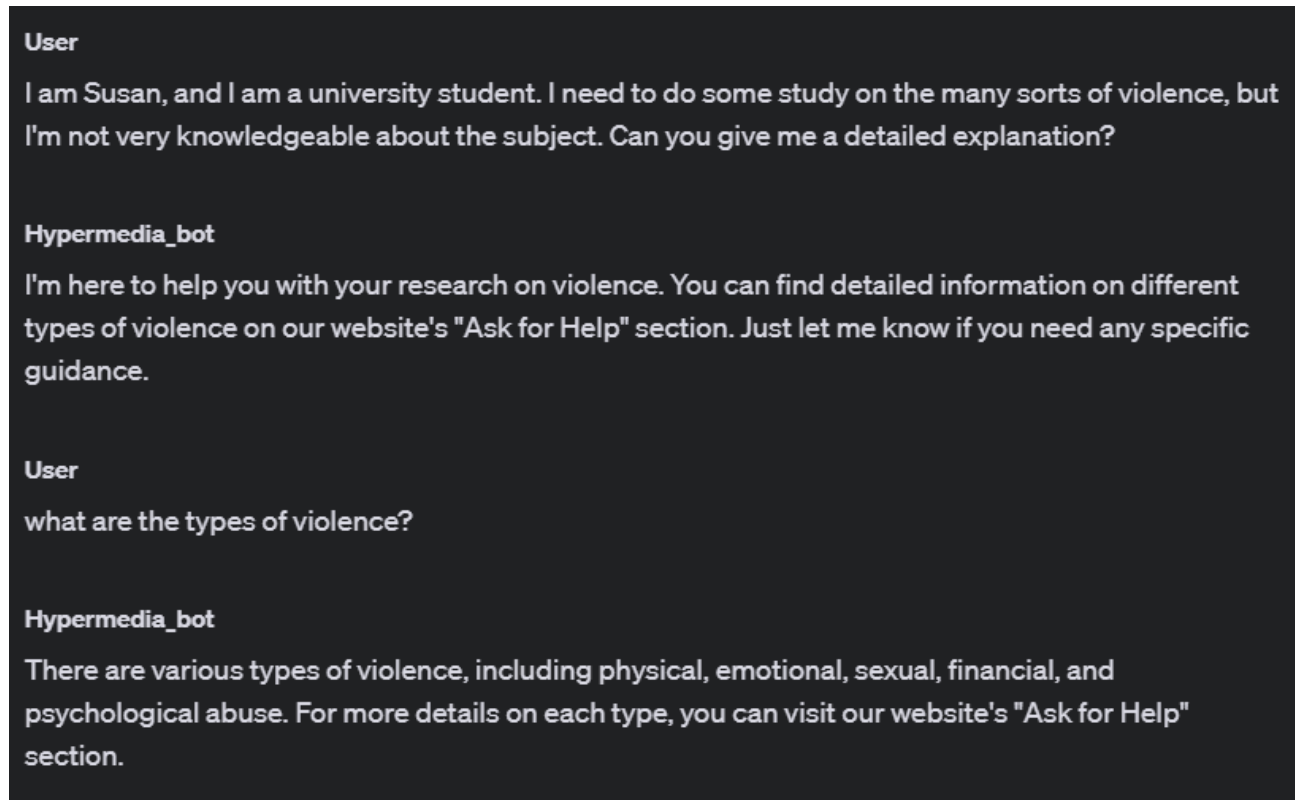

Figure 34: Scenario 3 Chatbot

## 8 Annex: Abstract Pages

Here we provide all the abstract pages we used on the website with related structural, group and transition links and the related content-in-the-small tables.

### 8.1 Kind of Topic Tables
